

XP40-Q1942 Explosion-Protected PT Thermal Network Camera

Thermal camera for hazardous areas

XP40-Q1942 Explosion-Protected PT Thermal Network Camera is suitable for onshore, offshore, marine and heavy industrial environments. It features a 316L stainless steel housing certified for hazardous areas according to for example ATEX, IECEx and UL. The housing prevents any inside sparks or explosions from escaping and igniting gases or dust in the surrounding air. The thermal camera accurately detects, promptly verifies, and then acts upon events of all kinds in conditions, ranging from pitch darkness to glaring sunlight. The network camera offers a high level of integration with other equipment, such as access control and fire alarms.

- > Stainless steel (SAE 316L) housing
- > VGA thermal resolution
- > Reliable detection and fast verification
- > Continuous 360° pan, ±90° tilt
- > Wide temperature range
