

Resources

Enterprise

System Architecture	Client / Server
Number of devices	8 to Unlimited (By Packs)
Supported Resolution	Unlimited (depends on hardware)
Supported Multi Brand	Supported
Supports expansion of cameras via packs (Packs)	Yes (Unlimited)
Speed of recording and live monitoring	Up to 30 FPS per camera
Works with IP Cameras IP e Video Servers	Yes
Works with alarm boards	Yes
Number of Alarm Boards	1 to Unlimited (By License Packs)
Allows simultaneous operations (Multi-tasking)	Yes
Supports Remote access to server	Yes
Supports multi-processor (optimizes tasks dividing the processing among the processors)	Yes
Has IP Filters	Yes
Has server activity log	Yes
Has events log	Yes
Supports DNS	Yes
Platform	Microsoft Windows 7/ XP/2003/Vista/2008
Has complete users rights system	Yes
User Groups and rights	Supported
Has features system for users	Yes
Limit of connections to server	Unlimited
Supported Image Resolution	Any resolution (depends on the camera)

Supported Video Codec	JPEG2000, Mjpeg, Mpeg4, H.264, H.265
Has privacy masking	Yes
Permits viewing video by time bar	Yes
Quick Device Adding	uPnP
Has control for filters and effects on the image	Yes
Has user profile for live monitoring	Yes
Supports Multi-Users	Yes (Unlimited)
Integration with Digifort Evidence	Yes
Integration with Active Directory domain	Yes
Has Master / Slave Architecture	Yes
Enables Biometric Authentication by Digifort - BioPass	Yes
Map Supports	Yes (Image, google maps)
Icons for Map	template icons
It features a privacy mode resource.	Yes
It features an identification of ownership resource.	Yes
It allows audit records to be exported.	Yes
API / SDK	Supported
Licence Type	Dongle for base licence, softkey for each camera
Upgrade	Free minor updates by setup file
Licence Installation	Camera Based
Layout & Drag Drop	Unlimited
Server Platform	Microsoft Windows Server 2003 / 2008 / 2012, 32 &
Set Record Day	Supported
Alarm	by motion, by VCA, HDD failure, Device Status
Alarm Filter	by camera, by time, by event, by devices, etc...
Alarm Actions	Email, sound alarm, send message, trigger preset, popup
Reports	PDF, Excel , HTML
Report Filigrane	Supported
Reports checking	by ID
Bookmarks	Supported
Events	Unlimited
Object List & Filter	Servers, Cameras, Maps, VCA's
Pan Til Zoom control for PTZ cameras	Supported
It enables working with Multi Streaming System.	Yes
Playback shortcut	1 min, 3 min, 5 min, 10 min, 1 hour, 1 day, custom, up to 512x
It is compatible with Unicode characters	Yes
Automatic start	Supported
Virtual Machine	Supported
Automatic update of changes carried out in the system	Yes
Configuration save	Supported (Remote, Local)
Compatible with Onvif version 1.02 or higher and Onvif Profile-S	Yes
It supports TCP and UDP (Unicast and Multicast) protocols.	Yes
It enables the distribution of videos through multicast on demand	Yes
Virtual Matrix	Supported
Record Meta Data	Supported
SQL Supported Database	Yes
Simultaneous Monitoring	Supported

It enables sending e-mails via SMTP with SSL authentication	Yes
It features an automatic services manager	Yes
It supports bidirectional and unidirectional audio.	Yes
Failover	Supported
It features complete support for the dewarping of panamorphic lenses	Yes
It features a RTSP integrated media server	Yes
It features a Database management module.	Yes
It enables the control of the login schedule and system use by the users	Yes
It features a full resource for bookmarking for full event scheduling	Yes
It enables edge recording.	Yes
Encryption	Supported
Installation	Setup file (included client, server, services, manuals, etc.)
It supports notification via HTTP	Yes
It features support for HTTPS and SSL.	Yes
It enables the integration with any system in the market	Yes
