

ZC-D5000 DOME SERIES

Super High Resolution Colour Domes with Integrated Varifocal Lens

- 1/3" IT CCD
- Super high resolution 540 TVL
- Integrated Computer varifocal lens
- Impressive colour reproduction
- Digital signal processing
- Backlight compensation
- Automatic gain control
- Easy adjustment with the unique 3-axis gimble

The ZC-D5000 series of dome cameras offer a high resolution of 540TVL using a CCD image sensor combined with a DSP chip, with a choice of three **computer** CS-mount varifocal lenses for improved performance.

New additions to the range include the ZC-D5029PHA colour dome with varifocal 2.9-8.2mm lens and the ZC-D5550PHA model, which comes with a varifocal 5.0-50.0mm lens. They join the popular existing ZC-D5212PHA dome with its 2.8-12mm auto iris varifocal lens designed for optimum performance in demanding lighting conditions.

Camera body switches provide set-up selection including backlight compensation, AGC on/off, auto white balance/auto white tracing (colour only).
