Hanwha Announces New Multi-Directional Cameras at ISC West

Modular lens design, high frame-rate, WDR, and built in analytics represent unprecedented value

Teaneck, NJ, March 5, 2018 – At ISC West 2018, in booth #14079, [Hanwha Techwin America](#), a global supplier of IP and analog video surveillance solutions, will announce two new Wisenet multi-sensor cameras. The Wisenet PNM-7000VD (2-head) and PNM-9000VQ (4-head) combine powerful performance in a small form factor at an affordable price. For maximum adaptability, configurable fixed-focus lens/CMOS sensor modules are available in multiple fields of view which can be easily installed onsite.

With high frame-rates (60/30fps), true WDR (Wide Dynamic Range) and a powerful suite of analytics built in, the cameras bring a new level of quality and value to the multi-directional camera market. Utilizing a single IP address over one cat5 cable requires only one VMS license further reducing the cost to install, service, and support.

“Our latest multi-directional cameras set a new bar for performance,” said Paul Kong, Technical

Director, Hanwha Techwin America. "The modular lens design, together with advanced Wisenet P series features like WDR, built-in analytics, and high frame-rates, is significant for the industry."

A perfect solution for hospitals, schools, and retail, both cameras allow for individual on-screen displays and a full suite of video analytics including loitering, directional detection, fog detection, tampering, motion detection, and objects entering or exiting an area. Hallway view aspect ratios are also supported for monitoring of vertical shaped areas.

Key features:

PNM-7000VD

- 2x 2MP sensors
- Up to 60fps for sharp motion capture
- Choice of 2.4, 2.8, 3.6 or 6mm field adaptable fixed lenses
- True WDR without compromising frame rate
- H.265

PNM-9000VQ

- 4x 2MP or 5MP sensors in any combination
- Up to 60fps @2MP and 30fps @5MP
- Choice of 2.8, 3.6 or 6mm field adaptable fixed lenses for 2MP sensors
- Choice of 3.7, 4.6 and 7mm field adaptable fixed lenses for 5MP sensors
- True WDR without compromising frame rate
- H.265

About Hanwha Techwin America

Hanwha Techwin America is a subsidiary of Hanwha Corporation, a South Korean based company. Hanwha Techwin is a leading global supplier of solutions for IP and analog video surveillance. Building on the company's history of innovation, Hanwha Techwin America is dedicated to providing solutions with the highest levels of performance, reliability and cost-efficiency for professional security applications.
