VIVOTEK's FE9181-H and FE9381-EHV are two unique H.265 fisheye fixed dome network cameras, both featuring a detailed 5-Megapixel CMOS sensor that produces superb image clarity. By employing H.265 compression technology and VIVOTEK's Smart Stream II technology, these cameras can reduce both bandwidth and storage consumption by up to 80%\* while retaining the highest standard of image quality.

Equipped with a fisheye lens for 180° panoramic view (wall mount) or 360° surround view (ceiling/floor mount) with zero blind spots, the cameras are able to provide coverage of wide, open areas, such as airports, shopping malls, retail stores, offices and more.

The FE9181-H and the FE9381-EHV are both equipped with a removable IRcut filter and WDR Pro technology, empowering the cameras to maintain optimal image quality around the clock and unparalleled visibility in highcontrast lighting environments. Moreover, the FE9381-EHV is designed with full EN50155 compliance, vandal-proof IK10-rated, and weather-proof IP66rated housing, ensuring that the camera can withstand shock, vibration, humidity, dust, and temperature fluctuations, and maintain stable and reliable video capture during vehicle movement.

## \* Depending on scene being monitored.

Combining both H.265 and VIVOTEK Smart Stream II, the camera can reduce bandwidth and storage consumption up to 80% more than cameras using H.264.
