SUMMARY

Network Cameras
Intelligent, robust and stylish
IP technology greatly increases the effectiveness of video surveillance systems. Grundig has embraced this new technology and incorporated it into an extensive CCTV IP surveillance camera range.
The new camera range includes PTZ and anti-vandal domes, for internal and external applications, with traditional box and specialist, compact casing designs also available. Each Grundig IP camera has impressive functionality, meeting every current surveillance requirement.

New models with motorized varifocal help the installer to reduce the cost in many ways: easy to adjust the lens, not necessary to put a ladder to adjust angle of view, night setup from remote place.
