

IP8330

Network Bullet Camera

Supreme Night Visibility • Exceptional 60 fps • Weather-proof

VIVOTEK IP8330 is the best bullet-style network camera offering supreme night visibility for diverse outdoor applications. Featuring up to an unbelievable 60 fps at VGA resolution and exceptional low light sensitivity down to 0.1 lux, the VIVOTEK IP8330 captures impressively smooth and crystal-clear video, even at nighttime. In order to adapt to constantly changing outdoor lighting conditions, the IP8330 also features a removable IR-cut filter as well as IR illuminators for superior image quality around the clock. With the Advanced Color Reproduction technology, users need to look no further for an all-in-one outdoor camera capable of capturing high quality, vivid video for both day and night.

For protection against harsh outdoor environments, the camera comes in an IP66-rated housing and weather-proof casing to withstand rain and dust. The IP8330 also supports the industry-standard H.264 compression technology, drastically reducing file sizes and conserving valuable network bandwidth. With H.264, MPEG-4, and MJPEG compatibility all included, multiple streams can be simultaneously transmitted in any of these formats at different resolutions, frame rates, and image qualities for versatile applications. The streams can also be individually configured to meet different needs or bandwidth constraints, thereby further optimizing bandwidth and storage.

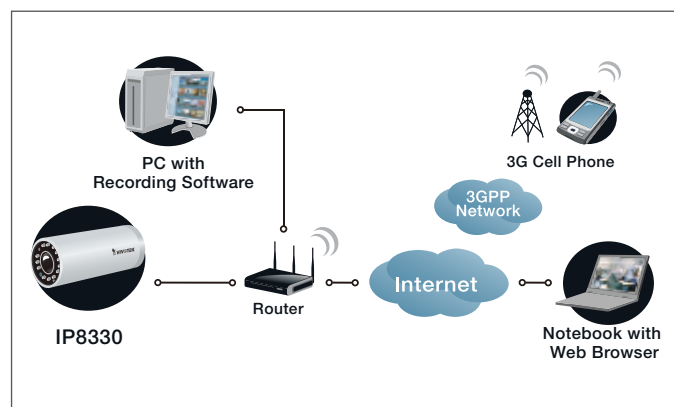

Incorporating a number of advanced features standard for VIVOTEK cameras, including tamper detection, 802.3af compliant PoE, SD/SDHC card slot, and VIVOTEK's 32-channel recording software, the IP8330 is the ideal solution for outdoor surveillance for low light and high frame rate applications.

Features

- > Supreme Night Visibility
- > Vivid and Faithful Color Performance
- > 60 fps for Smoother, Razor-Sharp Video of High-Speed Objects
- > Removable IR-cut Filter for Day and Night Function
- > Built-in IR Illuminators, Effective up to 15 Meters
- > Real-time H.264, MPEG-4 and MJPEG Compression (Triple Codec)
- > Weather-proof IP66-rated Housing
- > Tamper Detection for Unauthorized Changes
- > Built-in 802.3af Compliant PoE
- > Built-in MicroSD/SDHC Card Slot for On-board Storage
